Cookie Notice

Version 1.1 · Last updated: October 21, 2026

This notice explains browser storage used on https://onyxbridgepay.com. We do not currently use advertising pixels or website analytics cookies. We do not use a cookie banner because the current site uses language storage and security measures only. If we add optional analytics or marketing technologies, we will update this notice and ask for consent before using them where required.

Browser storage we use

Item	Provider	Purpose	Duration
onyx-locale (localStorage)	Onyx Bridge Pay	Remembers the website language selected on this browser. It is not a cookie and is not sent with each HTTP request.	Until you clear site data or change your selection.

Cloudflare security cookies

Cloudflare may set strictly necessary security cookies if a browser is challenged or particular Cloudflare security features are enabled. For example, cf_clearance can record that a browser passed a challenge. Its lifetime follows the configured Cloudflare Challenge Passage setting; Cloudflare's default is 30 minutes. Other Cloudflare cookies depend on the production zone's settings. We will verify the actual cookies and their lifetimes on onyxbridgepay.com after the production Cloudflare configuration is in place and update this notice if needed.

These security tools may process your IP address and browser information. See our Privacy Policy for more information.

Your controls

You can clear cookies and localStorage in your browser settings. Blocking necessary security features may prevent the waitlist form from working. You can change the website language using the language menu at any time.

Changes and contact

We will update this notice before adding non-essential analytics or advertising technologies. Questions can be sent to info@onyxbridgepay.com or by mail to ONYX BRIDGE PAY INC., 39 Queen Street, 3rd Floor, St. Catharines, ON L2R 5G6, Canada.
